

File List Generator

Colledia Control Utility Software

Written by Dave Yates

© Copyright BBC Technology 2004

Description

bncs_filesync_list.exe generates a file list from a given path suitable for use with the file synchronising utility.

Command line parameters

There are several options

| Command Line | Path from which filelist.sync is generated and then put |
|---|---|
| bncs_filesync_list | %CC_SERVER_ROOT%\%CC_SYSTEM% |
| bncs_filesync_list <system name> | %CC_SERVER_ROOT%\<system name> |
| bncs_filesync_list <root> <system name> | <root>\<system name> |

Adding this application to a C++ project whilst developing.

Under the Project->Settings a Post-build setup entry may be made.

The following entries would be typical:

```
copy myprog.exe $(CC_SERVER_ROOT)\$(CC_SYSTEM)\windows\bin
bncs_filesync_list
```
