

**Colledia Control
Configuration File Description**

Users.xml

Copyright SBS 2006

March 7, 2016

1 Purpose

This document describes the Colledia Control configuration file users.xml

The intended audience for the document is system developers and system maintainers.

1.1 Introduction

The configuration file users.xml is an xml file that stores a configuration settings for a user. Each workstation has a user, there may be more than one workstation with the same user, for instance multiple desks in an MCR have the same user.

1.2 Location

The g_pnlman.ini file is located at: %CC_ROOT%\%CC_SYSTEM%\config\users.xml

1.3 Contents

For each user the following table shows what parameters are used.

Name	Required	Details
Id	Yes	The user ID
panelset	Yes	The panelset that panelmanager uses for this user.
engset	Yes	The engineering panelset that panelmanager uses for this user.
password	No	Not currently used
level	No	Not currently used
system	No	Not currently used
config	No	Not currently used

1.4 Example Configuration

```
<?xml version="1.0" encoding="UTF-8"?>
<!DOCTYPE users SYSTEM "users.dtd">
<users>
  <user id="Playout" password="" panelset="playout"
    engset="test_andrew" level="" system="0" config="0" />
  <user id="CMTXR" password="" panelset="CMTXR"
    engset="test_andrew" level="" system="0" config="0" />
  <user id="CMTXL" password="" panelset="CMTXL"
    engset="test_andrew" level="" system="0" config="0" />
  <user id="VOB" password="" panelset="VOB" engset="test_andrew"
    level="" system="0" config="0" />
</users>
```

Sample contents for users.xml
